

LASH

MANUFACTURING & DEVELOPMENT, LLC

METAL MANUFACTURING SOLUTIONS. BUILT ON CAPABILITY. DRIVEN BY COMMITMENT.

LASH is a U.S.-Mexico based metal manufacturing company strategically located on the border, combining the best of both worlds: U.S. standards and Mexican efficiency.

BROWNSVILLE, TEXAS, USA

MATAMOROS, TAMAULIPAS, MÉXICO

TWO LOCATIONS. ONE INTEGRATED TEAM. ONE COMMITMENT TO EXCELLENCE.

WHO WE ARE

LASH Manufacturing & Development, LLC is a metal fabrication and manufacturing company specializing in custom solutions for industrial, commercial and infrastructure projects.

- BORDER OPERATIONS**
Two strategic locations. One integrated operation. Stronger together.
- U.S. QUALITY STANDARDS**
Built under strict quality, safety and process control requirements.
- COST COMPETITIVE**
We deliver the highest value through efficient processes and a lean manufacturing culture.
- FAST RESPONSE**
Proximity to customers, short lead times and the flexibility to adapt.
- GROWTH ORIENTED**
We are ready to invest, expand and evolve with long-term industrial programs.

BORDER ADVANTAGE

- Close to our customers
- Fast logistics
- Competitive costs
- Skilled bilingual workforce
- Cultural alignment
- One integrated team

WHAT WE DO NOT DO

We believe trust is earned by doing what we do best.

LASH is not a general contractor.
We do not provide:

- ✗ Design / Engineering
- ✗ Software
- ✗ Electrical installations
- ✗ Civil / Construction
- ✗ Commissioning
- ✗ Other non-manufacturing specialties

When a project requires other specialties, we work through strategic alliances with certified and proven partners.

1. OUR CAPABILITIES TODAY

CNC LASER CUTTING

Up to 3kW • Mild steel, stainless steel, aluminum

CNC PRESS BRAKE

Up to 175 ton • Precision forming

ROLLING

Plate rolling up to 1/4" thickness

WELDING

MIG, TIG • Certified welders • Steel, stainless steel, aluminum

FABRICATION

Structural, industrial, custom components

ASSEMBLIES

Mechanical and structural assemblies

FINISHING

Powder coating • E-coat • Sandblast • Galvanizing (through partners)

QUALITY CONTROL

Dimensional inspection • Weld inspection • Process control

ENGINEERING & CAD/CAM

In-house engineering support • SolidWorks • AutoCAD

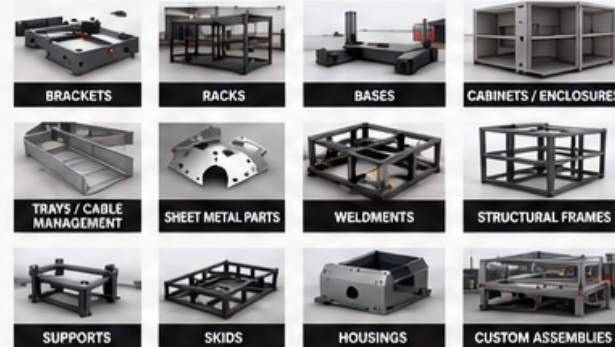

CAPACITY & EXPERIENCE

Decades of experience serving demanding industries

2. WHAT WE CAN MANUFACTURE FOR THIS INDUSTRY

Based on our current capabilities, we can manufacture a wide range of components and assemblies required for industrial infrastructure:

MATERIALS: CARBON STEEL • STAINLESS STEEL • ALUMINUM • COPPER (THROUGH PARTNERS)

3. OUR VISION

**OUR VISION IS TO BECOME
ONE OF THE LEADING METAL
MANUFACTURING COMPANIES
SUPPORTING THE NEW
TECHNOLOGICAL AND INDUSTRIAL
INFRASTRUCTURE OF NORTH AMERICA.**

We believe this transformation must be built on long-term relationships, responsible investment and operational excellence.

**WE ARE READY.
WE ARE LASH.**
